

I have leadership skills that have been demonstrated in many ways, as I have been President and VP (1st & 2nd) of Mid-America. I have also been VP of MO-AEYC for over 2 years. I am of leader of students at Johnson County Community College, where I teach. I am also a leader of program directors and teachers as demonstrated in monthly workshops I do for Continuing Education at the college. I also lead other directors as I meet with them to help make their programs great. I also have my own website that will help program managers figure out how to lead their staff to create greatness. It is www.enhanceyourleadership.com.
